### PRODUCT DESCRIPTION

#### Mini Pili Pendant Light by Arturo Alvarez

The Pili Mini pendant is a beautiful and unique light, created from a single piece of stainless steel thread. The thread is woven around itself, creating a random and mysterious pattern that catches the eye and sparks conversation. The light source is concealed, emanating out through the entwined shade to produce a warming and comforting glow.

The Pili Mini pendant lamp comes in an ethereal white colour finish and the small size makes it suitable for many applications. You can use in a small space as a main light or cluster the light in larger rooms to create a stunning display. Useful in homes, offices and commercial spaces for a modern and stylish touch.
