Arturo Alvarez Aimei LED Pendant

Arturo Alvarez Aimei LED Pendant was designed by Arturo Alvarez. This pendant was inspired by the spine of the atavistic and ancestral universe and is one of the most sculptural pendants by Alvarez. The frame imitates beating from the ribs as they open and close. Peering through its protective exterior, the heart of the universe beams out where the primordial light and energy of life are hidden.

The Aimei Pendant comes in one standard size and one colourway: ash wood. This pendant looks incredible in a commercial setting such as a restaurant or hotel foyer.
