**1 x Monochrome Pale Rose Available.**

**1 x Pastel Oyster Blue Rose Available.**

Poul Henningsen designed the PH 5 pendant back in 1958 after his very successful PH series and in response to changes in light bulb size and shapes. The light fixture radiates a beautiful and warm glow that shines both upwards and downwards and is always glare-free. The pendant can be hung in multiples using different finishes, creating your own colourful PH 5 cluster. In 2020, Louis Poulsen brought out 3 new finishes: monochrome black, monochrome white and monochrome blue. These stand-out colours show off the silhouette of the PH5 pendant lamp, being more bold and statement finishes for modern interiors.
