PRODUCT DESCRIPTION

Designer: Bertjan Pot

Prop Light Round Double Suspension by Moooi

An extravagant suspension light that suits any interior setting. The Prop Light Round Double has a circular area of 73 cm and has 96 glass bulbs in the front and back. The Prop Light Round Horizontal suspension was designed by Bertjan Pot, a designer known for his experimentation with materials. The Prop Lights are versatile, as the lack of colour tones allow you to place in any room and interior. The suspension light, as with all its siblings, becomes a decorative piece even when it is not in use.

The collection of the [Prop Lights](#) includes suspensions and floor lamps that are linear or round, hang horizontally or vertically and have light bulbs on one or both sides. Choose your Prop Light and install in both residential and commercial spaces, whether low or high ceiling.
