PRODUCT DESCRIPTION

Fontana Arte IO Wall Lamp

Shaped like a small curved lunar disc, IO is a wall lamp designed for LED light sources. Thanks to its dual-axis rotation frame, it has the distinguishing feature rotating on both longitudinal and transverse axes, for total light management. IO is easy to handle and adjust thanks to its size, the Up/Down movement on the external diffuser widens and narrows the ray of light.

Like a satellite with the planet around which it orbits, the IO lamp appears almost suspended, very close to the wall yet never touching it, positioned at a distance that allows the light to gently caress the wall in an intimate wall-washing effect.
