Fontana Arte Bianca LED Table Lamp

Available in a small and medium size, the Fontana Arte Bianca LED table lamp has a beautifully balanced diffuser which offers a soft and ambient glow to surroundings. With an integral LED, the Bianca provides a warm light emission, and suits a variety of applications including as a bedside light, a reading companion or as accent lighting on a coffee table.

The Fontana Arte [Bianca family](#) of luminaires features decorated diffusers with an orderly series of shallow delicate grooves etched into the white glass, which is meant to resemble small footprints on fresh snow. The diffuser is mouth blown; belt sanded and dipped in acid. The technique to create the diffusers is a traditional Venetian production process which is performed without any external aids for turning and shaping the glass blob inside the mould, but relies solely on the glassblower's skill and lung capacity – a challenge for even the most skilled craftsmen.
