PRODUCT DESCRIPTION

Mint LED Ceiling/Wall Light by Prandina

The Mint LED wall and ceiling light was designed by Prandina in 2011. A truly versatile light, the circular shape and simplistic design make it suitable for many settings. The shade is made from blown opal glass, diffusing the light wonderfully to create a far-reaching, glare-free glow. The wall/ceiling light also has an inner diffuser, helping even more to produce a warm light that is ambient and atmospheric. The light can be used on both walls and ceilings, allowing you to create the right lighting scheme for your space.

The Mint LED ceiling and wall light comes in 3 versions, giving you choice for lighting either a small space or a big room. The W3 is the smallest size with the W4 and W5 being the same size. The W5 produces more lumens than the W4 despite being the same size and so is brighter and will achieve a bigger effect in the room. The integrated LED light source also makes this ceiling/wall light energy saving and it emits a 2700K (warmest white) colour temperature. This light can be used in both domestic and commercial spaces and its sleek design make it both subtle and unique.

This light is non-dimmable. The W5 option can be purchased as a dimmable light on request. Please [contact us](#) for further enquiry.

PRODUCT SPECIFICATION

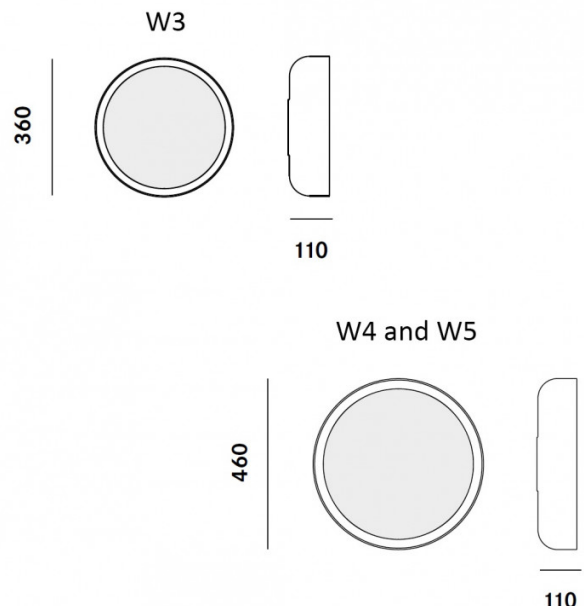

Light Source: W3 - 14.2W, 3000K, 2485 lumens
W4 - 16W, 3000K, 2984 lumens
W5 - 23.6W, 3000K, 4476 lumens
