PRODUCT DESCRIPTION

Designer: Luc Ramael

Biluna Floor Lamp by Prandina

Designed by Luc Ramael in 2007 alongside the [Biluna pendant light](#), the Biluna floor lamp is a contemporary and chic light that has a hemi-spherical shade that sits in a transparent ring. The lampshade sits at an angle, emitting a direct light that can be used to illuminate the room or to act as an upward spotlight. The inner diffuser spreads the light to produce a lovely glow that is warm yet bright.

The Biluna floor light is available in 4 finishes, allowing you to find the right match for your décor. The rounded, sleek lines of the floor lamp make it modern and stylish, seamlessly fitting into many settings. You can use the floor light in lounges, dining rooms, corridors and more in both domestic and professional spaces. Mix and match different colours for variety or buy several of the same to have a more consistent scheme.
