Fontana Arte Bianca LED Floor Lamp

The Bianca floor lamp by Fontana Arte stands at 130cm tall, and has a glass diffuser which is hand-blown and satin finished to obtain the distinctive 'silk effect' of the [Bianca collection](#). The Bianca LED floor lamp provides a diffused and soft glow while remaining an artistic piece, and suits living areas, studies and bedrooms alike for an ambient light.

The Fontana Arte Bianca family of luminaires features decorated diffusers with an orderly series of shallow delicate grooves etched into the white glass, which is meant to resemble small footprints on fresh snow. The diffuser is mouth blown; belt sanded and dipped in acid. The technique to create the diffusers is a traditional Venetian production process which is performed without any external aids for turning and shaping the glass blob inside the mould, but relies solely on the glassblower's skill and lung capacity – a challenge for even the most skilled craftsmen.
