PRODUCT DESCRIPTION

Designer: Joe Colombo

Oluce Fresnel 1148 LED Wall Light

Oluce Fresnel 1148 LED Wall Light is the LED version of the original Fresnel Wall Light, designed by Joe Colombo in 1966. Thoughtfully designed, the Fresnel 1148 LED Wall Light was created with a fresnel glass shade to refract the light outwards and distribute an even disperse of light. This wall light has a diameter of 10cm and a depth of 12cm, making it small enough to fit in the palm of your hand. With an IP rating of 44, the Fresnel 1148 LED Wall Light can be installed in damp areas both indoors and outdoors.

Oluce Fresnel 1148 is also available in a non-LED version: [Oluce Fresnel 1148 Wall Light](#). Colombo thoughtfully designed both the lights to work in both residential settings as well as commercial.
