PRODUCT DESCRIPTION

Bega 84259 Floodlight

Symmetrical wide beam light distribution. Floodlight for permanent installation. These floodlights are ideal for use with LED lamps. The long service life and the high luminous efficiency of the lamps guarantee maintenance-friendly and cost-effective operation of these floodlights. Their operation without tools and the many different possible uses make them practical illumination devices around the house and in the garden.

Floodlight with broad spread light distribution for permanent installations on a wall, under a ceiling or on a pillar. For floodlighting plants, walls and other surfaces.
