Foscarini Rituals Ceiling Light

Rituals is a combination of east and west, memory and modernity, poetic inspiration and technological research. It is a family of distinct, complementary shapes that translate the luminous magic of oriental rice paper lanterns into the precious physical form of blown glass.

The special glass working method, with irregular lines that mark the surface, was created by the industrialisation of the artisan process of grinding. The result is a delicate, fascinating decoration that produces a unique sensation of chiaroscuro and a soft and gentle light.

The Foscarini [Rituals Collection](#) also includes pendants, table lamps, wall lamps and XL versions.
