PRODUCT DESCRIPTION

Designer: Francesca Borelli

Oluce Eva LED Table Lamp

Oluce Eva LED Table Lamp was designed by Francesca Borelli. Eva LED Table Lamp investigates opposites, hollow and solid, light and dark, taking them from theory into practice. The interaction between people and objects takes a fundamental significance by adding a playful and continuously surprising component to the light.

Eva LED Table Lamp's structure is a sphere containing the LED light source; it is open on one side and sits on a slim cylindrical base. Inside the ball is concealed by a surface that nearly completes it, closing it like a sphere that recomposes itself, except a circle, a luminous light spiral that recalls the phenomenon of an eclipse. As this circular surface moves towards the interior or exterior of the ball, it allows different amounts of light to pass through, creating intimate, suffuse atmospheres, and revealing glimpses of the fine gold leaf walls inside the Eva lamp with varying degrees of clarity. The design is available in matte black with a gold interior. The timeless colours recall the moon and the astronomical phenomena that conceal it.

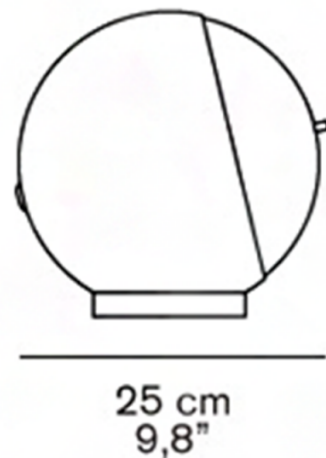

PRODUCT SPECIFICATION

Light Source: 12.5W, 3000K, 1770 Lumens

IP Code: 20

Dimming: In line on/off switch included on cable

Dimensions: Width: 25cm
Height: 26cm
