PRODUCT DESCRIPTION

Davide Groppi TeTaTeT Flute Table Lamp.

This is an evolution of the TeTaTeT lamp.

A rechargeable Lithium battery that allows the support column of the lamp to be practically “invisible”. The head of the lamp, where the battery is located, is lightweight and appears to be floating in the air. The effect is innovative and magical. The support column is made of methacrylate.

The transparent stem has a magnet at the base, which connects to a round metal plate which will hold the lamp in place. The magnetic plate can be hidden from view to create a floating effect.

Rechargeable light source via USB cable - power supply included.
