PRODUCT DESCRIPTION

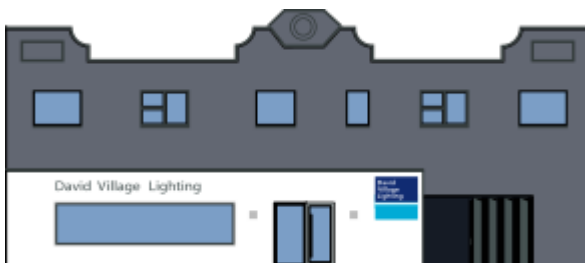

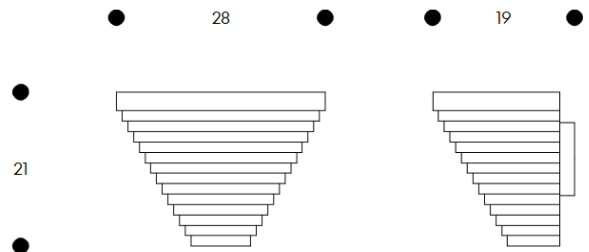

Artek A910 Wall light

This timeless and elegant design is popular in both public buildings and private homes. With structural echoes of Alvar Aalto's other lighting designs, its shade consists of thin metal sheets arranged in a staggered circular formation. Designed as a wall light, the A910 affixes to vertical surfaces and brings a bright-toned warmth to a room. The original model for this wall light was created during the period Aalto was designing lighting for the National Pensions Institute, Helsinki in the 1950s.

Can be mounted as uplight or downlight
