PRODUCT DESCRIPTION

Designer: Aleksandar Lazic

Audo Copenhagen Reverse Table Lamp

The choice and combination of materials is what makes the Reverse lamp stand out. The raw travertine base, tapering at the top, is left unprocessed so that the light can highlight its natural imperfections. The bronzed aluminium dome shade is the finishing touch to the lamp's balanced expression. The light hits the travertine body evenly, through the curved shade, and a game of light is initiated by the base itself.

The Reverse lamp is equipped with a dim to warm LED light source, which allows you to adjust the colour temperature from warm to warmer, without changing the light intensity. The lamp is an excellent companion for your home, desk, office or any other surface. The option of dim-to-warm makes the Reverse light an excellent choice to meet any lighting expectations.

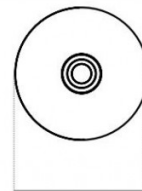

PRODUCT SPECIFICATION

Light Source: 6W, 2200-3000K (dim to warm), 330 Lumens

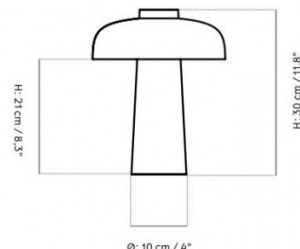

IP Code: 20

Dimming: Integrated dimmer included on product.
