PRODUCT DESCRIPTION

Designer: Note Design Studio

Silo Wall Light by Zero

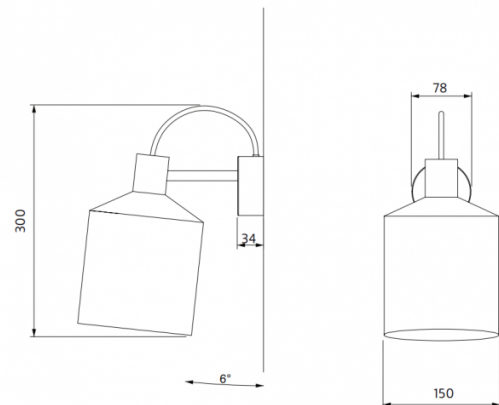

Note Design Studio were inspired by a grain silo, a large structure used to store all kinds of grains. The Silo collection, which already includes a suspension and a pendant light, now introduces the Silo Wall Light. A minimal design, with strict lines the wall light might have an industrial feel but the colours add a playfulness to it. Silo lights are available in Black (RAL 9005), Grey (RAL 7030), Green (RAL 6021), Ivory (RAL 1015), White (RAL 9010), Yellow (RAL 1018) and Apricot (RAL 3012). The choice of earthy colours allows you to pick a Silo wall light that will match and blend in or stand out with any interior decor. Silo Wall Light can be placed by the bedside, next to the armchair, above any furniture and is suitable for both residential and commercial settings. The shade is fixed at 6 degree angle, but other angles as well as different arm lengths are available on request; for more information please [contact us](#).
