PRODUCT DESCRIPTION

Designer: Arne Jacobsen

AJ Eklipta Outdoor Ceiling and Wall Light by Louis Poulsen

Designed by Arne Jacobsen, the AJ Eklipta Outdoor wall and ceiling lamp was first created for the Rødovre Town Hall in 1959. A versatile and simplistically chic light, the ceiling/wall lamp is made from an aluminium structure and a white opal glass diffuser. The glass lampshade creates a welcoming and warm glow, that will create a beautiful atmosphere in any exterior.

Available in 2 sizes, the smaller Ø350 and the larger Ø450, the AJ Eklipta outdoor ceiling/wall light can be used in patios, terraces, entrance ways, gardens and more. Whether needed as a welcome home light by the door or as a main light in a courtyard, this outdoor ceiling and wall lamp will not disappoint and will create a stylish aesthetic wherever it is used.
