PRODUCT DESCRIPTION

Designer: BIG

Gople Mini Ceiling Light by Artemide

Designed by BIG, the Gople Mini ceiling lamp is part of the beautiful [Artemide Gople collection](#). The lampshade is made from glass, using an old Venetian technique which allows the glass to fade from white to clear. The coloured versions are then created using a sustainable vacuum process which leaves a gorgeous metallic look that makes the shade glisten.

The Gople Mini ceiling is available in 5 shade colours, blue sapphire, copper, bronze, white and silver with a combination of 3 base colours, silver, white and black. The ceiling lamp emits a warm glow that draws the eye thanks to the gradual colour effect on the glass diffuser. You can use in multiple for large rooms or by itself for smaller spaces and you can also match with other products from the Gople range to have a consistent lighting scheme throughout your interior.
