PRODUCT DESCRIPTION

Designer: Bill Curry

Gubi Stemplite Wall Light

Released in 2021, the Gubi Stemplite collection was extended with the Stemplite Wall Light, designed by Bill Curry. The wall lamp was first created in the 1960s and was out of production for many decades. Now, Gubi has brought it to the modern user by taking original drawings from Curry to produce this spectacular wall fixture.

The Stemplite Wall Lamp is reminiscent of the time it was created, being heavily influenced by the space age era of design that existed. The wall light, as well as the rest of the Stemplite lights, were very forward-thinking at the time because they were formed from a single-contained unit and even featured on the original Star Trek TV series due to their innovation! The lamp sits at 90 degrees from the wall, seemingly branching out, holding a beautiful frosted glass lampshade that diffuses the light source.

Ideal for hallways, bedrooms, or living spaces, the Stemplite Wall Light combines aesthetic charm with functionality. Its dimming rotary switch allows for versatile lighting control, while its sleek design adds a touch of sophistication to both traditional and modern interiors.

PRODUCT SPECIFICATION

- Light Source:** 1 x Max 6W E27 LED (Excluded)
- IP Code:** 20
- Dimming:** Integrated dimmer on the product.
- Dimensions:** Shade: Ø32cm
Height: 42cm
Depth: 34cm
Wall Base: Ø18cm
