PRODUCT DESCRIPTION

Designer: Éric de Dormaël

Map 2 LED Wall Light by DCW éditions

Comprised of connected square and rectangular shapes, the Map 2 wall light was designed by Éric de Dormaël in conjunction with the [Map 1 wall light](#). The wall light is made from brass, with varnished brass used for the forefront design with patinated brass used as a backdrop. The Map 2 also takes elements from 20th century design, updating it with contemporary technology and know-how to produce a stunning and graphic look.

The Map 2 wall lamp has integrated LED light sources which shine in three positions, rebounding off the patinated brass for an effective glow. The structure also means that shadows cast on the wall, creating a mesmerising aesthetic that will enchant and amaze. Use in homes, work interiors or commercial settings in many room or spaces for a beautiful and effective lighting solution.
