PRODUCT DESCRIPTION

Designer: Simon Schmitz

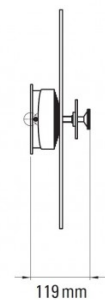

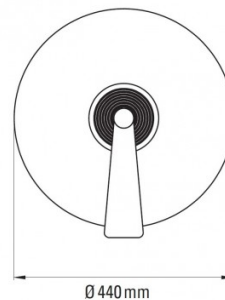

Pan LED Wall Light by DCW éditions

The Pan wall light was created by Simon Schmitz, a designer who puts sculpture and movement at the forefront of his designs. This wall light embodies this ethos, with a circular shade and a black structure that controls the dimming and light output. This works by pushing the central black circle in and out and by rotating the light stream using the silver knob. The circular diffuser is transparent, so therefore takes in its surroundings and diffuses the LED light source outwards across the wall in the way you choose. What results is an interesting way of playing with light, an interactive module that is innovative and forward-thinking.

A simple yet effective design, the Pan wall lamp can be used in many spaces such as offices, kitchens, lounges, dining rooms and many more for a contemporary and intriguing lighting solution. Use alone or in multiple to suit your space and marvel at the beautiful circular shadows that appear almost out of nowhere against the wall.

PRODUCT SPECIFICATION

- Light Source:** 6W, 2700K, 600 lumens
- IP Code:** 20
- Dimming:** Integrated dimmer on the product
- Dimensions:** Ø44cm
11.9cm depth
