Designer: Olivelab

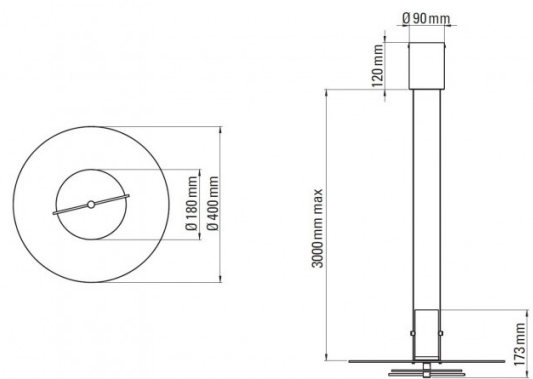

Delumina Pendant Light by DCW éditions

The Delumina pendant was created alongside the [Delumina wall light](#) which were designed by Olivelab, a collaborative startup that put magic, astonishment and beauty at the forefront of their creations. This pendant lamp is no exceptions, made from glass circular shades that sit suspended in mid air.

The integrated LED light source sits in the middle of the two diffusers, casting an upward and downward glow. This makes the Delumina pendant lamp perfect for hanging over tables and surfaces, being particularly useful in dining rooms and kitchens. The pendant can be used in multiple for larger spaces or alone in smaller spaces and will add a touch of innovation and elegance to any interior.
