PRODUCT DESCRIPTION

Designer: Héctor Serrano

Agasallo Pendant Light by Arturo Alvarez

We currently have limited stock of one of these items in our Clearance section .

The Agasallo pendant was designed by Héctor Serrano and is comprised of a metal lampshade which is folded and perforated. The name Agasallo derives from the Galician word for gift with the pendant light resembling wrapping paper or the bow on a top of a present thanks to the gorgeous folded top. The steel is also perforated with the tiny holes letting the light escape to cast mesmerising shadows in your interior.

The Agasallo pendant lamp is available in 4 sizes, the Agasallo 1, Agasallo 2, Agasallo 3 and Agasallo 4, which all vary in height and width. The different sizes allows you to find the right fit for your space or you can even mix and match to create a varied cluster pendant for a big illumination. With downward glow, this pendant can be used above tables and surfaces but can also thrive when used for general ambience.
