PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Ciclotalia Flex Ceiling Light

The Catellani & Smith Ciclotalia Flex Ceiling Light is an updated version of the classic Ciclotalia, producing a modern take on a refined and elegant light fixture. The ceiling light is made from metal, with beautiful elongated lampshades that subtly hold the light bulb. The arms are also made from brass flex, which allows the user to shape and change the direction of the light flow.

The spotlight shades have a glass lens which provides a diffused glow which is also concentrated. The spotlights are also adjustable being able to rotate around 350° so you can direct the light where you need. The Ciclotalia Flex ceiling light is available in a white or black colour finish and will look stunning in any home or professional space for an effective or chic lighting solution.
