PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith CicloItalia Flex Double Wall Light

The Catellani & Smith CicloItalia Flex Double Wall Light uses brass and varnished metal to produce a timeless and elegant piece. The wall lamp consists of two arms which are made from flexible brass, allowing the user to extend and retract the arms, ushering the light flow where needed. This makes the CicloItalia Double Wall Light perfect as ambient task lighting, granting you the ability to direct the illumination. The lampshades have a smooth coned shape with a glass lens that helps provide a concentrated and soft glow.

Available in either a sleek white or black finish, the CicloItalia Flex W2 Wall Light can be used in reading nooks, offices, workshops and even as a bedside lamp. It is suitable for a multitude of interiors. The wall light provides a beautiful ambience and a stunning aesthetic that will slip into any contemporary design scheme.
