PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Mirror Ball LED Pendant

The Tom Dixon Mirror Ball LED Pendant was designed by award winning designer Tom Dixon who has created iconic designs which have become classic British collections. Tom Dixon's significance in the design industry was cultivated through designs such as the Mirror Ball which was inspired by space helmets and disco balls.

This ceiling light is created by blowing plastic into perfect spheres and internally colouring it with the metallic finish. Dixon uses plastic in these lamps as it is more durable, lightweight and less breakable than glass. These plastic orbs are designed to focus the brightness from the bulb and project a soft, broad beam of light.

Available in the iconic colours of chrome and gold, this pendant lamp would provide a characterful interior to any space as it's reflective lamp creates an iconic feature.
