PRODUCT DESCRIPTION

Designer: Poul Henningsen

PH Wall Outdoor Light by Louis Poulsen

The PH wall outdoor light was first launched in 1966 and takes its design from the iconic three-shade system range designed by Poul Henningsen in the 1920s. The system was developed as Henningsen wanted to create an effective light that was anti-glare and could be used in a wide variety of settings. This is achieved by the ratios of each shade, which distribute light evenly for a warm glow.

The system is applied here to an outdoor wall light, made from copper for a vintage and luxurious look. The wall lamp can be used in many exteriors, whether you want to line your garden or have a nice welcome light at the doorway.

PRODUCT SPECIFICATION

Light Source: 1 x Max 12W E27 LED (excluded)

IP Code: 23

Dimming: Non-dimmable.

Dimensions: Shade: Ø45cm
