PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Cala Metal Floor Lamp

The Cala Metal floor lamp was designed by Joan Gaspar and expands on the ever popular range by introducing a black metal structure. The shade is made from white polyester, which works to softly diffuse the light bulb, creating a warm and welcoming glow. The base has a pleasing and simple silhouette, creating a dynamic look in contrast to the white lampshade.

The Cala Metal floor light can be used in a wide variety of settings to provide ambient lighting, perfect for a cosy corner. The minimalist aesthetic means the floor lamp can slip into any design scheme, whether traditional or modern.
