PRODUCT DESCRIPTION

Designer: Elemental

Huara LED Table Lamp by Artemide

The Huara table lamp was designed by Elemental, a design Do Tank that was founded in 2001. Wanting to make the most of LED technology and electronics, this table light takes inspiration from the history of light and the role it has played for humankind across millennia. Before we even discovered fire, humanity used the stars and the natural light cycle to navigate. Now in the modern day we have access to extremely intelligent lighting solutions, using technology to diversify spaces.

The Huara table light is a testament to this transformation, paying homage to darkness and light with an interactive design. The table lamp is divided into geometric sections, with each one lighting up as you touch it to create your own unique display of light and dark. The Huara is also compatible with the Artemide App so you can control it wirelessly via bluetooth on a smart device and it features a USB port so you can handily charge your devices!

The Huara LED table light is aptly named after the Aymará word for star. The Aymará is the native community of the Acatama desert which is the darkest and driest desert in the world. Here, we can see stars beyond our wildest dreams, taking in the true beauty of natural light.

PRODUCT SPECIFICATION

- Light Source:** 47W, 3000K, 161 lumens
- IP Code:** 20
- Dimming:** Integrated dimmer on the product/dimmable via bluetooth using the Artemide App.
- Dimensions:** Ø30cm shade
30cm height
