PRODUCT DESCRIPTION

Designer: Daniel López

Marset Ledtube Mini LED Wall Light

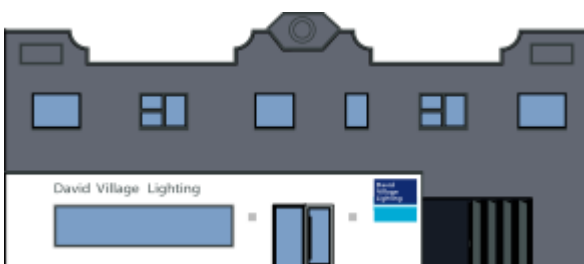

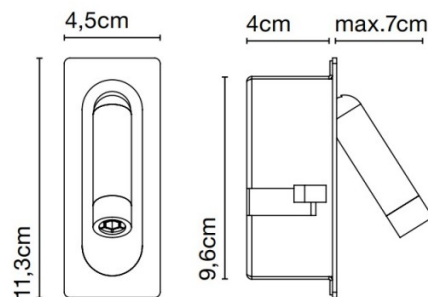

The Ledtube mini was designed by Daniel López who joined Marset's technical department in 2003 and worked closely with multiple designers. This taught López how to maintain the essence of each product, down to the last detail. Whilst also using his technical know-how to make the lamps technically impeccable.

Available in black, white, aluminium, and bronze, the Marset Ledtube mini wall light brings a delicate touch of elegance to a room. There is a reason why Ledtube has long been one of the most functional products in the Marset collection. The high functionality comes from the light's ability to provide excellent illumination and direction without disturbing your bedmate. This glare-free light is able to be directed in any direction and fold away into the wall meaning that this light takes up no space.
