PRODUCT DESCRIPTION

Designer: Pablo Pardo

Pablo Bola Lantern LED Portable
Table Lamp

The Bola Lantern is a portable light with a size and stature that give it a sense of presence. This Pablo portable embodies the lightness and floating nature of the Bola design as you can now take this Bola Lantern wherever you go. The hand-crafted leather strap in black and tan allow you to pick up the lantern with ease. The leather beautifully contrasts with the sleek shiny metallic base that is available in black, gunmetal, chrome, and brass. The base also houses a discreet dimmer switch that acts as a 4-stage dimmer so that you can have optimum lighting control.

The portability of the Pablo Bola Lantern LED table lamp is only possible due to the rechargeable batteries located within the base of the lamp. Once fully charged, using the USB cable provided, the battery life ranges from 10-400 hours depending on the light intensity, this gives you the freedom to take this lamp anywhere and everywhere. This Pablo table lamp is also highly sustainable in its design. The lamp is able to be completely disassembled and 97% recycled. This not only helps our planet but also allows this Pablo lamp to be easily fixed or parts replaced.
