PRODUCT DESCRIPTION

Designer: Pablo Studio

Pablo Contour LED Table Lamp

The Contour LED table lamp is a sleek minimalist design that 'captures warm LED illumination within a remarkably slender extruded aluminum structure'. The exterior is a smooth bright matte white which contrasts beautifully with the wooden interior that is illuminated by the LED light above. This design aims to frame your space and provide a calming space to place your loved items. Create a stunning feature with your home or workspace by simply placing your belongings inside the structure. This Pablo table lamp also comes equipped with a USB charging port for your smart devices. This is an ideal addition to a bedside table or desk as it creates an interesting and useful space.

The LED integrated into the aluminum frame is a glare-free energy-efficient light that can be dimmed with ease and precision using the dimmer switch on the base. Pablo describes this lamp as 'creating a window into your space'.
