&Tradition Tabata LN10 Wall Light

The Tabata Wall Light is a work of art, designed by Luca Nichetto for &Tradition. Nichetto envisioned creating a wall lamp that appeared as if it was floating. The use of powder-coated aluminium adds to its sculptural body; which represents the designer's aesthetic and craftsmanship.

Tabata is comprised of three interconnected parts, and you can orient the lamp to direct the light as you desire. With the big light facing down, up, right or left; upon installation. The choice of colours, black, silk grey, dark burgundy & vermilion or deep blue & ivory, also attests to the designer's attention to detail. The finishes complement the grain metal surface as if it had just come out of production. A sculptural piece, the Tabata LN10 lamp is ideal for interior spaces, and the versatile colour options allow you to match it with any decor. The lamp's warm light creates a cosy atmosphere with an industrial touch, in any space.
