Kartell Goodnight LED Wall Light

The Kartell Goodnight wall light is a stylish modern design based on the most fundamental and oldest light, the candle. Designed by Phillippe Stark, the Goodnight is to resemble the warm glow and romantic ambiance of a candle. To do this he goes back to a candle's primary form and creates a highly technical and modern design that is available as a [portable lamp](#) or as a wall mount.

Available in six colour finishes which are glass champagne, matt titanium, matt white, polished chrome, polished copper, and polished titanium. All of these luxurious colourways add a metallic or monochrome finish to any interior. Ideal for at bedsides or next to mirrors, these modern candle-inspired Kartell LED wall lights bring a unique designer flare to your space.
