PRODUCT DESCRIPTION

Designer: Harrit-Sørensen

Le Klint BEE HIVE Table Lamp

Inspired by traditional Japanese lanterns with a Danish twist, the BEE HIVE table lamp by Le Klint creates a natural enveloping stillness. The designer, Harrit-Sørensen, experimented with Le Klint's iconic pleats to create this stunning statement lamp that would look ideal on a shelf, by a window or even just placed on the floor.

The design of the BEE HIVE table lamp unites Danish and Japanese design traditions with its beautiful craftsmanship and manipulation of light. The shade embodies the care and simplicity of Japanese design with its hand-folded paper pleats. This paired with the oiled thin oak frame creates the perfect combination between delicate design and functionality.

Available in sizes small and medium, this Le Klint table lamp will create the perfect space within your home. This lamp was designed with the future in mind, described by Le Klint as 'The lamp's materials and manufacture are in accordance with contemporary demand for sustainability, modest use of materials, long lifetime and the ability to be repaired if necessary'. This makes the BEE HIVE a permanent fixture in your interior with its longevity and timeless appearance.
