Lune LED Wall Light by Estiluz

The Lune wall light is a clever and elegant solution for effective and atmospheric lighting in your space. Made from a metal front plate, the lampshade smoothly curves to create a gorgeous aesthetic, being both dynamic and unimposing. The integrated LED light source sits behind, encased by an acrylic diffuser to create a warm and soft glow.

The Lune wall lamp is available in either a satin gold or matt black colour finish, being suitable for many types of design schemes. The wall lamp creates a direct and indirect illumination, being useful lining walls in hallways, lounges, corridors and much more.

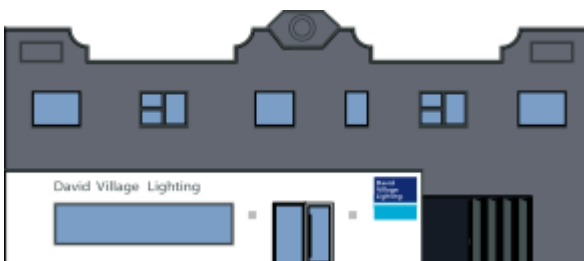

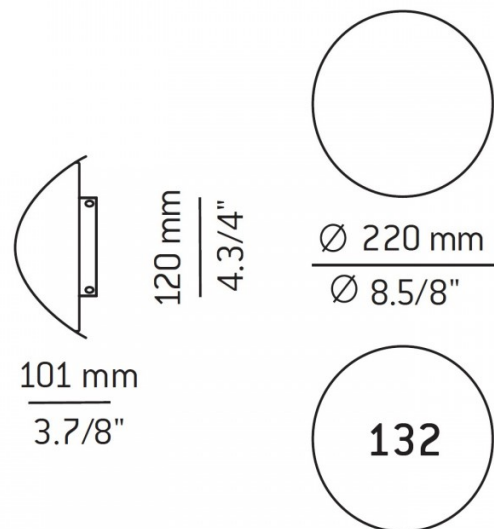

The Lune LED wall lamp is also available with customisable laser-cut signage (as shown in images) and in an outdoor version. Please [contact us](#) for more information and prices.
