PRODUCT DESCRIPTION

Aquina Ceiling Light by Astro

The Aquina ceiling light is both a sophisticated and contemporary fixture, made from a glass lampshade that is paired with a sleek metal ceiling base. The glass shade is transparent and features an inner shade made from white glass that acts to conceal the light bulb for a diffused, warm glow. The ceiling lamp therefore shines outwards, as well as downwards, creating an effective illumination to light the room.

The Aquina ceiling lamp is designed for use in bathrooms, being suitable for zones 2 and 3, creating a beautiful aesthetic in your space. The ceiling light is available in a small 240 or large 360 size and in a matt black or polished chrome metal finish. Use in wet interiors for a gorgeous and chic look, perfect in homes, hotels, offices and more.
