PRODUCT DESCRIPTION

Designer: BIG

Slicing Bollard LED Outdoor Floor Lamp by Artemide

The Slicing Bollard is the perfect floor light for outdoor areas, producing a warm and welcoming ambience that can light pathways, gardens and much more. The bollard was created by design group BIG who wanted to explore the idea of nature and space, developing an aesthetic which features overlapping slats. The slats allow the LED light source to be concealed whilst also letting the light escape for a gorgeous look.

The Slicing Bollard outdoor light is available in a chic aluminium finish which can easily slip into any outdoor aesthetic. Use in projects, commercial spaces, hospitality venues, homes and more to create a pleasant glow as the sky gets darker.
