PRODUCT DESCRIPTION

Alton Floor Lamp by Nordlux

The Alton floor lamp is a beautiful example of Nordic minimalism, made from a combination of glass and metal. The glass shade has a gorgeous round silhouette, adding an organic and natural shape to your interior. The metal stem and base are sleek and simple in nature, taking up minimal space.

The Alton floor light is available in either an opal white glass shade paired with a brass base or a smoked black glass shade paired with a black base. The opal white version lends a more traditional feel with a diffused glow, whereas the smoked black version lends a more contemporary look with an exposed light bulb. Perfect for a wide variety of settings including homes, hospitality venues and projects.
