PRODUCT DESCRIPTION

Designer: Francesca Smiraglia

KDLN Dala LED Ceiling Light

Dala was designed by Francesca Smiraglia for KDLN, it is a decorative light with an architectural feel. The ceiling light has two pieces of metal, one enveloping the other giving it an organic feel. It reminds us of flower petals. Smiraglia makes sure to give the light minute feminine details. The Dala ceiling light is a combination of the strict square and more spherical ceiling lights we're used to. Dala places itself somewhere in between, with its curves giving it a softer feel.

Available in various colour configurations, the Dala ceiling has a dark grey or sand main structure with an option of concrete, wood or copper finish to complete the look. Dala emits a staggering 4200 lumens, giving it a very strong and powerful light output into any space. Dala is also available with a 3000K colour temperature, upon request. Please [contact us](#) for further information and pricing.
