PRODUCT DESCRIPTION

Designer: Patricia Urquiola

Almendra Linear LED Pendant Light by Flos

The Almendra Linear pendant is part of the [Flos Almendra collection](#), a stunning range designed by Patricia Urquiola. Inspired by the almond tree, this pendant light resembles the branches, leaves and almonds, creating a natural aesthetic in any interior. This look is paired with a natural colour palette, with the choice between six finishes: anthracite, bay blue, lilac, ochre, nude and white.

The Almendra Linear pendant lamp comes in two sizes, the S3 which has three shades or the S4 which has four. These lampshades or "leaves" are also movable, creating a modular system that is unique to the user. Each leaf can be turned around 60° so you can decide where you want to direct the light and you can create multiple lighting scenarios with just one pendant. A beautiful and contemporary fixture, the Almendra Linear suspension can be used in a wide variety of settings as both a main light or for accent lighting.
