PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Coil Pendant

Normann Copenhagen Coil Pendant was designed by Simon Legald. Coil was created with the sense of infinity in mind which Legald achieved through the design that creates as much volume with as little material as possible. Formed of curved stainless steel wires, the Coil combines space and a delicate simple design. Legald describes this combination as the air between the wires makes the design appear light and airy despite its immense volume, making the air as equally important for the design, as the material itself. This simple but striking design becomes the focal point in any room.

The Coil Pendant is offered in two sizes: small and large. Legald defines it as a design that embodies a simple and sincere expression. The product is highly suitable for those seeking a minimalist aesthetic in their residential or commercial spaces. It can be incorporated into office spaces, as well as commercial settings. Its unique design is a testament to its versatility, making it an ideal choice for a diverse range of settings.

PRODUCT SPECIFICATION

Light Source: **Small**

1x max 8W, E27 LED (excluded)

Large

1x max 8W, E27 LED (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming

Dimensions: **Small**

Diameter: Ø50cm

Height: 22.5cm

Cable: 400cm

Large:

Diameter: Ø76cm

Height: 37cm

Cable: 400cm

Ø50 x H22.5

Coil Lamp
Ø50 x H: 22,5 cm

Ø76 x H37

Coil Lamp
Ø76 x H: 37 cm
