PRODUCT DESCRIPTION

Designer: BrogliatoTraverso

Lost LED Table Lamp by Magis

The Lost table lamp brings innovation and ingenuity to any setting, featuring the latest LED technology for a wonderful light solution. The table light was designed by BrogliatoTraverso as part of the [Lost collection](#), the first lighting range created for the designer brand [Magis](#). The Lost design came from the designers' wish to strip away the typical lampshade, creating a hollow spherical shade for a pure and minimalist look.

The Lost table light has an integrated LED source which stretches around the circumference of the shade, creating an effective and mesmerising illumination. Finished in a simple black, the table lamp can be used in a wide variety of settings on desks, tables, side tables and more. The table light can also be dimmed by holding your hand in the middle of the shade so you can choose the right light intensity for your space and function.
