PRODUCT DESCRIPTION

Designer: Jo Hammerborg

Trombone Cylinder Pendant Light by Warm Nordic

The Trombone Cylinder pendant is part of the [Warm Nordic Trombone collection](#), a range that had its beginnings in 1966. Created by Jo Hammerborg, the pendant light takes the lampshade from the floor lamp and table light versions, having a distinct cylindrical silhouette.

The Trombone pendant lamp emits a downward directed glow and also features perforations on the shade which allows the light to escape. The pendant is available in a brass or aluminium finish and is perfect when used in rows or lines for hanging over tables or alone for ambient lighting.
