Flos Luce Orizzontale LED Suspension

This product is an **Offline Only exclusive**, available only to buy from selected authorised Flos dealers. Please [contact us](#) for pricing or to arrange an appointment to discuss this product in our [showroom](#).

A stunning new light by Flos, the Luce Orizzontale combines craftsmanship and cutting-edge technology. Originally made for a bespoke project, the concept behind this light was to design an interlocking modular suspension with tubular glass elements, suspending from the ceiling. The ambitious design, by Ronan & Erwan Bouroullec, is more than sculptural. Each size, S1, S2 and S3 is comprised of 8, 10 or 12 glass tubes, all supported by an aluminium bar. Two LED strips are inserted into the bar and are pushing the light upwards and downwards through the glass.

Luce Orizzontale can be dimmed by various methods; either use the dimmer located at one end of the bar, or you can additionally connect the suspension via Push-To-Make or DALI dimming systems. The LED Strips emit a powerful light from 100W up to 175W on the bigger size. Its length ranges from 1.65m up to 2.40m, the Luce Orizzontale suspension is bound to catch the eye in any space.

Please Note: The touch dimming on this product allows you to switch the light between uplight, downlight, and both uplight/downlight. If the suspension is wired to an on/off switch then the touch control can also be used to dim the light up and down.

PRODUCT SPECIFICATION

Light Source: **S1:** 100W, 2700K, 4500 lumens
S2: 145W, 2700K, 5750 lumens
S3: 165W, 2700K, 7000 lumens

IP Code: 20

Dimming: Direct Touch control dimming/Direct Touch control switching + push to make dimming control / Direct Touch control switching + DALI dimming control.

Dimensions: **S1:** 165.6cm width, 90x6x8cm ceil.canopy width
S2: 207.2cm width, 90x6x8cm ceil.canopy width
S3: 248.8cm width, 132x6x8cm ceil.canopy width

Glass Modules: Ø10cm
Cable Length: 270cm
