PRODUCT DESCRIPTION

Designer: Says Who

Nordlux Bob To-Go Portable Lamp

The Bob To-Go Portable is temporarily unavailable.

Nordlux's Bob To Go Portable Lamp suits those wanting to look after the environment with an exciting solar-powered LED light source, meaning through the day it uses the sun's energy to power its light source, and then emits a warm glow as soon as darkness falls. Perfect for winter sitting around an outdoor fire, as the early nights draw in, or during summertime when the warm evenings lead late into the nighttime. Then as soon as the sun comes up it switches off in the day recharging ready for darkness again.

The light turns on automatically as soon as the sun goes down, so it's great for a nightlight to light up the garden. Battery life is 4.5 hours while charging time is 4 hours via USB cable or 10 hours when solar charging. The Bob To Go light can be hung on the wall outdoors, placed on a table or surface, or even a Kettle spike or tripod to put the light at a higher level. Please [contact us](#) for more information.

Says Who, the Scandinavian Designer Duo are fascinated with 3D Design concepts and takes a more pragmatic approach to design. They use the latest technology to propel their creations and make something cool and different.

Bob To Go has a unique design made of curved bamboo giving it a beautiful, natural finish. The soft, natural curves create a beautiful glow and shape to make an outdoor space look natural and beautiful. It's the perfect combination of functionality, natural beauty, warmth, cosiness, and even looking after the planet.

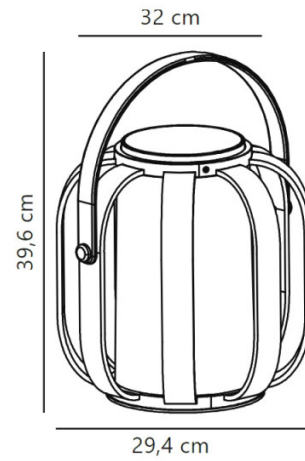

PRODUCT SPECIFICATION

Light Source: 3.5W, 2700K, 300 Lumens

IP Code: 44

Dimming: Integrated on/off switch on the product.

Dimensions: Height: 39.6cm
Shade: Ø29.4cm
Length: 32cm
Outdoor Base: 18cm
Charging Cable Length: 100cm
