PRODUCT DESCRIPTION

Designer: Says Who

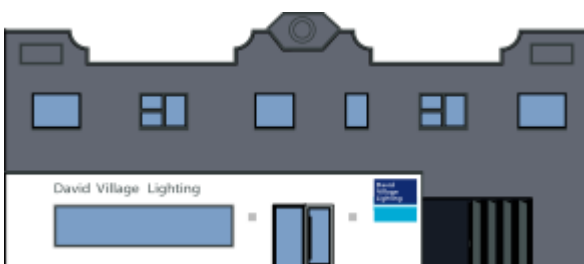

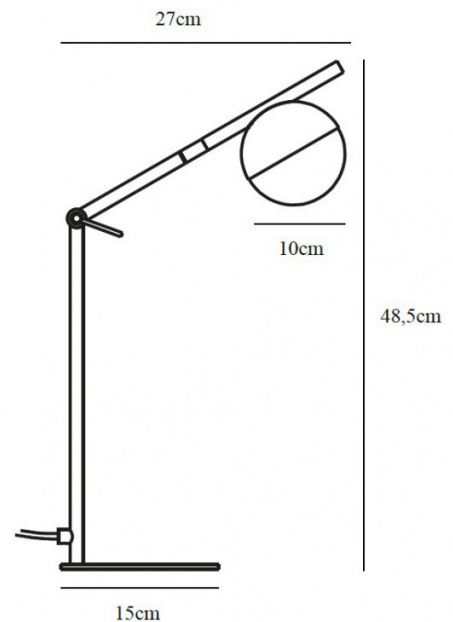

Nordlux Contina Table Lamp

The Nordlux Contina Table Lamp is a beautiful, art-deco lamp with a slim black or brass frame and a matte white opal bulb made from mouth-blown glass that produces a soft, diffused light. The Table Lamp has an adjustable lamp shade enabling you to direct the soft glare-free light either side to side or up and down, with the upper part of the frame adaptable to different positions. The slim, adjustable frame makes sure space isn't taken up more than necessary and means the product can be moved around or transported with minimal effort.

This attractive design combines style and function and brings classic Nordic warmth and cosiness to an interior. Designers, Says Who, have made details stand out and created a lamp that would sit perfectly in a living room, on a desk, or within a workspace. This lamp is available in black or brass.
