PRODUCT DESCRIPTION

Designer: Says Who

Leo To-Go Solar LED Portable Lamp

The Leo To-Go LED Portable is temporarily unavailable.

Nordlux's Leo To Go Portable Lamp is a functional, stylish outdoor lamp that you can take anywhere you want with its 'picnic basket' style handle and bamboo material.

Boasting a soft and natural look, the Leo To Go Solar LED Portable Lamp was designed by Says Who and is a perfect solution for lighting your garden, terrace or balcony. You can place this solar charged portable lamp wherever you need it in your space and it will automatically illuminate when darkness falls.

Not only do the materials used for the Leo To Go ensure the design remains natural and true to the outdoor spaces it will occupy, but it is also responsibly-sourced natural bamboo - meaning that Nordlux are helping the environment whilst also helping you. The solar powered LED provides a beautiful warm glow of light, creating a calming soft ambience wherever you decide to display it.

The battery life of this lamp is 4.5 hours, while charging time is 4 hours via USB cable or 10 hours when solar charging. The Leo To Go light can be hung by its handle, placed on a table or surface, or even a Kettle spike or tripod to put the light at a higher level. Please [contact us](#) for more information and pricing.
