PRODUCT DESCRIPTION

Designer: Bønnelycke MDD

Design For The People Nobu LED Table/Wall/Clamp Lamp

The Multipurpose Nobu Lamp was designed by Bønnelycke MDD for Design For The People. It is a modern reinterpretation of an industrial work lamp, boasting a classic architectural form but with many additional benefits. Fitted with integrated LEDs, the Wall/Table/Clamp lamp is guaranteed a longer lifespan of regular bulbs and grants you full control of the light output - this can be adjusted via the built in touch dimmer on the head of the lamp. The flexible arm and the adjustable head further enhances the personability of this light, you can create a focused direct light for workspaces or other areas you may need to focus in, and you can also adjust the lamp in order to produce an indirect light and curate a warm and relaxing environment.

The modern and minimalistic design includes three base types; a standard table lamp base, a clamp base and brackets to mount your lamp onto the wall. The possibilities are truly endless with the Nobu, it generously gifts you three lamps in one. The Nobu LED Table/Wall/Clamp Light is a great addition to your office, bedside table, kitchen and even in a hallway. Alternatively, it can create an inviting atmosphere in modern public spaces such as restaurants, bars, cafes, libraries and hotels.

PRODUCT SPECIFICATION

Light Source: 9W, 2700K, 600 Lumen

IP Code: 20

Dimming: Integrated dimmer on the product.

Dimensions: Head: Ø10.5cm
Arm Height: 46.5cm
Arm Depth: 49.5cm
Base: Ø20cm
Cable Length: 250cm
